**General:**

In accordance with the provisions in the Supplement to the Transit Procedures Manual (points 3.9.4.2 and 3.9.4.3), access to the data is either by direct transmission of the ETD data to an electronic system of the relevant Customs Administration or by accessing the electronic system you are using. Make sure you create and send ETD. Access must be provided at the premises of the respective customs office.

If these two alternatives are not feasible at the present time, access to the ETD data by the responsible customs office on your premises is also permitted for a further period to be defined. However, this is only valid until one of the two named alternatives has been implemented.

**Einzelheiten in den jeweiligen Mitgliedstaaten:**

**Details in the respective Member States:**

The statements made by you in connection with the application for the individual airports apply.

**AT:**

Data access to the cargo system of the ground handling agents.

**CY:**

Data access to the cargo system of the ground handling agents.

**DE:**

Data access to the cargo system of the ground handling agents.

The data transfer in the context of the IT procedure ATLAS remains unaffected. Until further notice, transmissions must be made in accordance with the applicable ATLAS procedural instruction and the participant's leaflet for the respective release.

**IT:**

Data access to the cargo system of the ground handling agents.

**GB:**

Data access to the cargo system of the ground handling agents.

**GR:**

Data access to the cargo system of the ground handling agents.

**IT:**

Data access to the cargo system of the ground handling agents.

**MT:**

Data access to the cargo system of the ground handling agents.

**PT:**

Data access to the cargo system of the ground handling agents.

This data access option can only be used for a transitional period to be regulated in agreement with the Portuguese customs administration.

The ETD data shall be transmitted without exception to the Portuguese Customs Administration as an electronic message (both at the point of departure and in the destination) in their local customs system.

I ask you to do this with the local authorities in Portugal as soon as possible.

**Customs offices of departure:**

Please refer to the table below for authorized customs offices of departure. Customs offices of departure, which were not listed in this table but were requested by you, could not be granted due to the findings made in the course of the consultation procedure by the requested, locally competent, customs offices.

This was either to establish that no movements were taking place at the airport in question or that the customs authorities there were not granted access to the data of the ETD.

**Customs offices of destination:**

The authorized customs office of destination can be found in the table below. Customs offices of destination not mentioned in this table, but requested by you, could not be granted due to the findings made during the consultation procedure by the requested, locally competent, customs offices.

This was either to establish that no movements were taking place at the airport in question or that the customs authorities there were not granted access to the data of the ETD.

Annex to field 10: "General remarks (Conditions)"

Authorization number

DEETD3300ED000003

Holder of the authorization (Name and Address)

Condor Flugdienst GmbH  
Condor Platz

60549 Frankfurt am Main

EORI-Number:

DE2000296

**General remarks (Conditions)**

1.

Insofar as your data systems do not yet rule out the possibility of retrospectively modifying an electronic transport document used as a customs declaration for the transfer of goods to Union mailing, the document versions must be archived in their data systems with the respective time stamps, and both the original document and any subsequent modifications have to be modified the customs authorities are recognizable and comprehensible.

2.

In view of the legal obligation to carry out a consultation procedure with 45 days' notice, I would point out that the application for further offices of departure or destination must be made well in advance of the start of planned transport operations.

3.

Any discrepancies (eg. missing or excess quantities) in the course of the procedure must be reported immediately to the respective office of departure or destination.  
The respective offices of departure or destination can regulate details.

**ANNEX XI****Authorisation of Airlines to use The Electronic Transport Document**Subject of the authorisation

1. The airline **British Airways plc** is hereby authorised, subject to revocation at any time, to apply the simplified Union/common transit procedure in accordance with Article 233(4)(e) of Regulation (EU) No. 952/13 and Articles 24 and 27 of Delegated Regulation 341/2016 Delegated Regulation. Article 112 of Appendix I to the Convention on a Common Transit Procedure (hereinafter referred to as "simplified transit procedure"). This is the use of a single (electronic) manifest as a transit declaration to cover goods placed under several transit procedures.

Scope

2. The simplified transit procedure shall cover the carriage of all goods which the airline transports by air between the following airports (and countries):

**See Attached Appendix**

The Union transit procedure is compulsory under the terms of Article 295 of Commission Implementing Regulation (EU) No. 2015/2447.

Documentation required for consignments:

3. Where the Union/common transit procedure is used, the manifest containing the information specified in Appendix 3 of Annex 9 to the Convention on International Civil Aviation shall be treated as equivalent to a Union/common transit declaration, provided it contains the information required under the Transit Manual Part VI, paragraph 3.8.2.1. (Article 111(4) of Appendix I to the Convention on a Common Transit Procedure).

Procedure at the airport.

## Departure.

The airline shall record the status (T1, T2, C [equivalent to T2L], T2F [equivalent to T2L.F], T [for mixed consignments] or X [for Union goods to be exported and which are not placed under a transit procedure]) of all consignments in its commercial records and shall indicate the status of each consignment on the manifest, unless the notation "consolidation" (possibly in an abbreviated form) is recorded in respect of groupage consignments. In such cases the air waybills for consignments on the manifest shall include the normal trade description of the goods including all the details necessary for their identification.

Where a consignment is already placed under a transit procedure or carried under the inward processing, customs warehouse or temporary admission procedure, the airline shall insert the code TD (standing for Transit Document) on the manifest. In such cases, the airline shall also enter the letters 'TD' in the corresponding airway bill as well as a reference for the procedure used, the reference number and date of the transit declaration or transfer document and the name of the issuing office.

Identification of consignments shall be ensured by means of a label affixed by the airline to each consignment, bearing the number of the accompanying air waybill; if a consignment constitutes a load unit, the number of the load unit is to be indicated.

In accordance with Article 297 of Commission Implementing Regulation (EU) No. 2015/2447 (Article 29 of Appendix I to the Convention on a Common Transit Procedure), the time limit for presentation of the goods at the office of destination shall be **12 Hours**.

The registration number of the manifest/transit declaration shall comprise of the:

- a. name of the airline carrying the goods;
- b. flight number shown on the manifest
- c. date of the flight
- d. name of the airport of departure (loading) and the airport of destination (unloading).

For each consignment entered on the manifest, the following information shall be included the:

- a. number of the waybill;
- b. number of packages;
- c. normal trade description of the goods or, where appropriate "Consolidation"
- d. gross mass

The airline transporting the consignments shown on the manifest shall be the principal for these transport operations.

The airline shall, on request, present a print of the data exchange manifest to the competent authorities at the airport of loading, if this is not done during the data exchange process. For control purposes, all the air waybills relating to the consignments listed on the manifest are to be made available to the said authorities.

Destination:

The manifest at the airport of loading, which is transmitted by data exchange technology, shall become the manifest at the airport of unloading.

The simplified transit procedure shall be deemed to have ended once the data exchange manifest is made available to the competent authorities at the airport of unloading and the consignments listed on the manifest have been presented to them.

A print of the data exchange manifest shall be presented on request to the competent authorities at the airport of unloading, if this is not done during the data exchange process: the said authorities may, for control purposes, require seeing all the air waybills relating to the consignments listed on the manifests.

Further guidance on use of the ELECTRONIC TRANSPORT DOCUMENT FOR CARRIAGE BY AIR (LEVEL 2) can be found at:

[www.gov.uk/government/publications/notice\\_216](http://www.gov.uk/government/publications/notice_216) and  
[www.gov.uk/government/publications/transit-manual-supplement](http://www.gov.uk/government/publications/transit-manual-supplement).

The airline shall inform the customs authorities of all offences or irregularities. It shall also be obliged to cooperate in clarifying offences or irregularities or discrepancies found by the competent authorities at the airports of loading and unloading. Any

offences and irregularities identified in the United Kingdom shall be notified to the Central Community Transit Office (CCTO) at the address shown in Appendix 1.

The customs authorities at the airport of destination shall notify the customs authorities at the airport of departure and the authority which issued the authorisation of all offences and irregularities at the earliest opportunity.

Responsibilities of the airline

The airline shall be obliged to give the local customs office at the international customs airports adequate advance notice of its intention to apply the simplified transit procedure.

The airline must:

- a. keep suitable records, which must include a record of the status of the goods, enabling the competent authorities to verify operations at departure and destination.
- b. make all relevant records available to the competent authorities.
- c. undertake to be completely accountable to the competent authorities in meeting its obligations and accounting for and resolving all discrepancies and irregularities.

Final provisions

This authorisation shall be without prejudice to formalities vis-à-vis dispatch and arrival incumbent on the airline in the countries of departure and destination.

The authorisation shall enter into force on. **1<sup>st</sup> May 2018**

The airline shall send the customs authorities of each of the airports concerned an authenticated copy of the authorisation.

In the event of blatant or repeated breach of the provisions governing the simplified transit procedure or the requirements for granting the authorisation, the authorisation shall be suspended or revoked.

Agreed between:

Holder of the authorisation (please print your name, your status within the company, the company name and then sign and date below)
