WORK FOR THE UNITED NATIONS
A workforce of the world, for the world.

Education

Advanced university degree (Master's degree or equivalent) in Civil, Electrical, Mechanical, or Environmental Engineering, Architecture, or related area. A first-level university degree in combination with qualifying experience may be accepted in lieu of the advanced university degree.

Experience

5+ years of progressively responsible experience with facilities and infrastructure, in the areas of planning, designing and supervising engineering-related construction/commissioning/renovation projects, and managing routine and non-routine maintenance and repairs is required.

Language

Fluency in English is required. Knowledge of French and/or another UN official language is an advantage.

What is a Generic Job Opening #GJO?

A Generic Job Opening is a recruitment mechanism for the purpose of creating and maintaining viable rosters at all levels and job families, enabling faster recruitment in UN field missions.

What is a #Roster?

A diverse pool of pre-assessed candidates who are available for immediate and anticipated job opening in peacekeeping operations, special political missions, and other field operations or entities in the UN Secretariat.
