**The systems for FATCA/ DAC2/CRS and CbCR/DAC4 will not be available -
new data specifications for data submission**

The Tax Department informs that for a specific period of time, the special e-service FATCA/CRS/DAC2 and e-service DAC4/CbCR offered through the Government Gateway Portal “Ariadni”, will be out of service.

The FATCA/CRS/DAC2 will be out of service between the period 18/01/2021 until 05/02/2021, while the DAC4/CbCR will be out of service between the period 01/02/2021 until 10/02/2021. Data submission within this period is suspended.

The suspension of those services is deemed necessary due to the replacement of the specifications of the existing XML files (XML schema) with the new upgraded versions of XML Schema files.

At the same time, we inform all interested parties that with the re functioning of these services, the data submission will be done only on the basis of the new upgraded XML Schemas version as defined by the international organizations and bodies that handle the specific standards. Please note that the current xml schema version of FATCA will not be affected and will remain the same.

Details about the new templates of XML files have been posted on our Department's website (www.mof.gov.cy/tax).
