MODELS OF AUTHORIZATION NUMBERS ISSUED FOR APPROVED EXPORTERS IN THE PAN-EURO-MED ZONE

General remarks:

- the slashes (/) in the description of the code are typed in order to differentiate the various elements of the authorisation numbers. The slashes are part of the code when included in the examples. For instance, they are included in the Czech example (CZ/02/0001/04) but not in the Hungarian one (HU11110N6000000000).
- as far as the European Union is concerned, verification requests should be sent to the country where the authorisation for approved exporters was issued (easily identifiable via the two-letter Iso Alpha country code appearing at the beginning of the authorisation number) and not to the country of export of the goods. This stems from the fact that in the EU approved exporters authorisations issued in one Member State are valid in several other Member States¹. As a result, a Spanish approved exporter can export goods from Italy.

Albania:

Two-letter Iso Alpha country code (AL) / two-digit authorization number / three or four-digit code identifying the local customs office directly responsible for the control of the approved exporter / Two-digit month when the authorization is issued / four-digit year of authorisation. Example : AL/15/323/09/2013. (valid until 31/12/2017)

or

Two-letter Iso Alpha country code (AL) / two-digit authorization number / six-digit code identifying the local customs office directly responsible for the control of the approved exporter / two-digit year of authorisation. Example : AL/15/010000/15

Algeria: the procedure for granting the status of approved exporter has not yet been put in place.

Austria: Two-letter Iso Alpha country code (AT) / three-digit identification number of the customs office / three-digit number of authorisation given by the same customs office. Example: AT/100/015.

Bosnia and Herzegovina: Two-letter Iso Alpha country code (BA) / serial authorisation number / year of authorisation (last two digits). Example: BA/123/14.

Belgium: Two-letter Iso Alpha country code (BE) / one, two, three or four-digit authorisation number. Example: BE 74.

¹ Council Regulation (EC) No 1207/2001, OJEU L 165 of 21.6.2001.

Bulgaria: Two-letter Iso Alpha country code (BG) / four-digit code identifying the local customs office directly responsible for the control of the approved exporter / three-digit serial authorisation number / year of authorisation (last two digits). Example: BG/1223/009/08.

Croatia: Two-letter Iso Alpha country code (HR) / two-digit code identifying the local customs house directly responsible for the control of the approved exporter / three-digit serial authorisation number / year of authorisation (last two digits). Example: HR/10/001/13.
