PREFACE

The aim of this report is to provide provisional estimates on the National Accounts main aggregates for the year 2011, while the tables show comparable figures as back as 1995. The estimates are based on the latest available information in the Statistical Service as at March 2012. The figures for 2010 and 2011 are provisionally estimated and based on the latest available indicators, since the results of certain economic surveys for these years are not yet finalized. Certain data for previous years were revised on the basis of the final results of various economic surveys.

It should be noted that the data refer to the Government Controlled Area of Cyprus i.e. excluding the part occupied by Turkish forces since 1974.
