namely combustion piston engines, and power transmission appliances; cooling appliances for dissipating heat losses for combustion engines, as engine or motor components, heat exchangers for engines, vent valves (engine or motor components) and their drives, pumps as engine or motor components and their drives, refrigerant filters for engines or motors, fittings for engine boilers.

8 Hand tools.

9 Testing appliances; computer software; computer programs stored on data carriers; electronic publications (downloadable); fuel cells for electricity generation and for combustion engines; testing appliances for combustion engines, namely combustion piston engines, for power transmission appliances and for aggregates (both driven by combustion engines, namely combustion piston engines); electrical and electronic measurement, testing, warning and monitoring appliances and instruments (in as far as they are included in this class) for combustion engines, namely combustion piston engines for power transmission appliances and for aggregates (both driven by combustion engines, namely combustion piston engines); electrical and electronic monitoring, alarm and control appliances, especially ship propulsion systems and on-board power supply; electrical and electronic appliances and instruments (in as far as they are included in this class) for fire detection and alarm systems, automatic energy generation systems, operational data recording systems, machine telegraph systems (especially for ships); fuel consumption meters for motors, especially ships' diesel motors; control panels and navigation systems, especially for ships; electrical equipment and instruments for combustion engines, namely combustion piston engines, namely switching appliances, cables and batteries, electrical and electronic control, switching and regulation appliances for combustion engines, namely combustion piston engines, power transmission appliances and for aggregates (both driven by combustion engines, namely combustion piston engines), electrical and electronic appliances and instruments for the regulation, control and monitoring of propulsion systems for railway vehicles; mechanical, hydraulic and pneumatic measurement, testing, warning and monitoring appliances and instruments for combustion engines, namely combustion piston engines.

11 Heating appliances for pre-heating combustion engines, heat exchangers, heating fans, heat pumps, cooling tanks.

12 Vehicles; appliances for transport by land, air or water; combustion engines, namely combustion piston engines for the propulsion of vehicles, namely land vehicles, railway vehicles and military vehicles (all driven by combustion engines, namely combustion piston engines); appliances for power transmission in connection with combustion engines, namely combustion piston engines, for the propulsion of vehicles, namely land vehicles, railway vehicles and military vehicles (all driven by combustion engines, namely combustion piston engines), namely mechanical gearboxes for land vehicles with permanent or switchable transmission, reverse gearing, hydrodynamic, hydrostatic and electrical gearboxes for land vehicles as well as combinations of such gearboxes, mechanical, hydrodynamic and electrical couplings for land vehicles; switchable, non-switchable and flexible couplings for land vehicles; articulated couplings, drive shafts, drive axles, each for land vehicles; appliances for power transmission in connection with combustion engines, namely combustion piston engines for land vehicles (all

driven by combustion engines, namely combustion piston engines), namely mechanical gearboxes for land vehicles with permanent or switchable transmission, reverse gearing, hydrodynamic, hydrostatic and electrical gearboxes for land vehicles as well as combinations of such gearboxes for land vehicles; mechanical, hydrodynamic and electrical couplings for land vehicles; switchable, non-switchable and flexible couplings for land vehicles; articulated couplings, drive shafts, drive axles for land vehicles; base frames (in as far as they are included in this class) and flexible bearing components (in as far as they are included in this class) for combustion engines, namely combustion piston engines, for power transmission appliances and for aggregates (both driven by combustion engines, namely combustion piston engines); mechanical and hydrodynamic brakes for combustion engines, namely combustion piston engines, for land vehicles, railway vehicles, military vehicles.

35 Business management, business administration, procurement services for third parties (purchase of goods and services for other companies); services in wholesale and retail in the sectors: machines and their components, motors and their components, vehicles and vehicle accessories, ships and ships' accessories, railway vehicles and their components, lighting, heating, cooling and ventilation appliances, tools and metal goods, chemical products, combustibles and fuel and electrical and electronic goods.

36 Insurance; financial affairs; monetary affairs.

37 Building construction; repair, namely the repairing of machines and their components, of propulsion systems and their components as well as of motors and their components; maintenance and servicing, especially of propulsion systems and their components; installation and commissioning of propulsion systems.

42 Services of an engineer; undertaking of technical tests and checks, technical measurement as well as scientific research; research and development in the field of technology; technical planning of operational facilities; design and development of computer software; material and quality testing.
