### 1. BACKGROUND

The European Defence Agency (EDA) was established on 12 July 2004, and is governed by Council Decision (CFSP) 2015/1835 defining the statute, seat and operational rules of the European Defence Agency. The Agency has its headquarters in Brussels.

The main task of EDA is to support the Council and the Member States in their effort to improve the Union's defence capabilities in the field of crisis management and to sustain the Common Security and Defence Policy (CSDP) as it currently stands and as it develops in the future.

The Agency is structured into four directorates. The Corporate Services Directorate (CSD) and three operational directorates: Industry, Synergies and Enablers (ISE); Capability, Armament & Planning (CAP); Research, Technology and Innovation (RTI).

### 2. THE AGENCY'S WAY OF WORKING

The Agency is an "outward-facing" organisation, constantly interacting with its shareholders, the participating Member States, as well as with a wide range of stakeholders. It works in an integrated way, with multi-disciplinary teams representing all of the Agency's functional areas, to realise its objectives. Its business processes are flexible and oriented towards achieving results. Staff at all levels need to demonstrate the corresponding qualities of commitment, flexibility, innovation, and team-working; to work effectively with shareholders and stakeholder groups, formal and informal; and to operate without the need for detailed direction.

### 3. THE CORPORATE SERVICES DIRECTORATE

The Corporate Services Directorate (CSD) provides critical business support to EDA operations by delivering high-quality corporate services under 5 dedicated units, namely: Human Resources; Procurement and Contract Management; Finance; IT and Information Management together with Security and Infrastructure Management. Additionally, the EDA Legal Team provides legal, data protection and institutional advice and checks to its management relating to the fulfilment of Agency objectives. The EDA Programme Manager and Corporate Projects Officer provides a leadership role in, and a focal point for, good practice in Project, Programme and Risk Management. Finally, the Record Manager is responsible for the effective and appropriate management of information produced and/or received by the organisation.

CSD processes are geared towards efficient and optimal use of resources, leveraging good practice and technological solutions while ensuring sound financial management, transparency and accountability; outward focus and commitment to continuous improvement are the hallmarks of CSD.
