

New Format of the Tax Identification Number (T.I.N.)

The Cyprus Tax Department would like to inform that the format of the Tax Identification Number (T.I.N.) assigned to new registrations in the Cyprus Tax Department's Registry from **March 27, 2023** onwards **has been changed**.

The new T.I.N. format consist of:

- Nine (9) characters, with the first eight (8) being numeric and the last being a Latin letter (English), as the alphabetic control character.

ALL new T.I.N.s start with the number six (6), for example: **60000000A**

It is important to note that the new T.I.N. format is a random number with a control character at the end, and does not contain any identifying elements (such as an ID number or Company Registration number) related to the user.
